

Lifting Equipment Engineers Association

LEEA TRAINING SPECIALIST

Closing date: [open](#)

THE ROLE

Reporting to the Training Manager, the Training Specialist delivers LEEA's high quality, highly valued and globally recognised Certificate and Advanced Programme training courses in the UK and abroad. Our courses focus on the inspection and thorough examination of lifting equipment.

Duties include:

- Delivery of LEEA training courses in the UK & overseas
- Monitoring of course material and content, providing feedback to our design and development team
- Coaching and mentoring course delegates in preparation for LEEA assessments
- Organising and planning of training course preparation, set up and delivery
- Assisting with the development of new courses

The role will be based at LEEA head office in Huntingdon, with travel as required.

ROLE REQUIREMENTS

Applicants must have:

- A good depth of knowledge of lifting equipment
- A teaching and/or recognised training delivery qualification or be able to demonstrate experience in training and instructing.

We are looking for someone with practical and theoretical experience of lifting equipment and a background working in the lifting operations environment. A thorough knowledge of health and safety legislation, specifically LOLER and PUWER, is advantageous.

Since this is a training role, you should be able to

- Motivate, inspire and encourage training delegates
- Transfer knowledge and skills to delegates
- Be confident in the delivery of training presentations

Other Attributes:

- Strong organisational skills
- Good time management
- Good communication skills both verbally and written
- Capable of working under pressure whilst forming good relationships with members, students and colleagues
- Able to work independently in the UK and Overseas
- Prepared to travel and work away from home
- Willing to work variable hours as required regionally
- Full UK Driving Licence and passport holder

SALARY AND BENEFITS

We can offer a highly competitive salary and benefits package, including company vehicle or vehicle allowance, first-class pension and health insurance products in line with the role and the candidate's experience.

Structured induction and development training will be provided to the successful applicant.

ABOUT LEEA

The Lifting Equipment Engineers Association (LEEA) is established across the world as the leading trade association for all those involved in the lifting industry. We have 1200 members in 73 countries.

Our organisational vision is

*To promote enhanced standards and sustainable development
for the worldwide Lifting & Safety Industry.*

Our Strategic Priorities are to:

- Support our members to identify and manage risk
- Protect and promote our members' interests
- Provide our members with a competitive edge

To deliver this vision, LEEA strives to be:

- Member focused – everything we do must be aimed at improving the position of our members
- Outward facing – we will build relationships with the sectors in which our members work
- Forward looking – we will look to the future and develop solutions which ensure that our employers stay ahead of the curve
- Insight sharing – we will share our work and insights with our members
- Excellence seeking – at all times we must aim to be excellent
